

Migrate to AWS with Confidence

The AWS Migration Acceleration Program provides a clear pathway to migrate your Microsoft environment and modernise your operations in the Cloud.

Organisations that migrate to AWS....

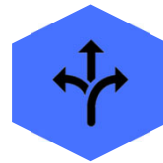

Reduce Database Costs

AWS is **62%** cheaper than Azure by price/performance

Improve Performance

AWS is **2x** faster than Azure

Benefit from Licence Flexibility

Bring your own license (**BYOL**) and license included (**LI**) options

Achieve Greater Security

5x more services offering encryption than Azure

Getting Started is Risk Free!

Through Ubertas Consulting, an assessment of your operation is no cost, so that you can understand how AWS can support your migration journey.

Take the 1st Step with Ubertas Consulting. Organisations can understand more about their migration journey and eligibility for the AWS Migration Acceleration Program through the Migration Assessment, an analysis of your options, 100% funded by Ubertas Consulting to ensure there is no cost to starting your journey.

Current State - An assessment of your existing environment from both a technical and commercial perspective to generate an understanding of the scope of a potential migration.

Define the Future - A representation of a future AWS architecture, embedding security, performance and resilience in accordance with the AWS Well-Architected Framework.

Plan the Path - Understand how the Migration Acceleration program would support your journey, combining the migration phases in the methodology with free tooling and commercial support.
